POD ACCOMMODATION

Ashanti is proud to announce our new venture adding accommodation to our offering to our clients!
This is also a ground breaking project for Tourism and we are proud to be introducing this concept to our clients.
This is an ongoing project for the year of 2026 - 2027 but the Pods that are done and ready are available for your event - please keep in touch with our Management Team to know how many Pods will be available for your event.

The Honeymoon Pod

The honeymoon pod concept designed on the water banks of the Ashanti Estate dam, has been created as a first installment of our move towards a more eco and green solution to accommodation on the farm. The entire pod is designed with green, fully recyclable eco foam, and has been created with a modular design which makes it completely moveable.

The interior finishes, basic kitchenette and double vanity bathroom mean our bridal couples are in for a unique treat in this self-catering unit.

The Pod Village

Situated walking distance from the venue and set in the beautiful setting with the mountains in the background, the Pod Village has the most stunning views of the setting sun and the surrounds. Each Pod is individually built and suitable for 1-2 guests. The pods have a queen-sized bed, en-suite open plan bathroom with amenities such as coffee-& tea making station, underbar fridges, air-conditioning, wi-fi and your basic bathroom requirements. No rooms can be twinned, unfortunately.

Check-in time for the Pods are at 14:00 and check-out the next morning is strictly at 10:00.
Breakfast service is optional at booking and should earlier check-ins be requested an additional charge up to R850 can be levied. Please contact our management team for rates and availability.
